U.S. EXPORTS OF BEEF BREEDING CATTLE IN CALENDAR 1972

USDA veterinary inspection export certificates of beef breeding cattle during 1972 totaled 14,431 head. This represents a decrease of 24 percent from the 19,056 head exported in 1971, and a 35 percent decrease from the total of 22,265 head exported in 1970. Calendar 1972 is the third consecutive year that exports of U.S. beef breeding cattle have declined in numbers. Nevertheless, Bureau of Census statistics show a substantial increase in value to $9 million, compared with the 1969 total of $5.7 million.

Canada continued to be the most important foreign market for U.S. beef breeding cattle, taking 4,860 head, a 26 percent decrease from the 1971 total of 6,571, and a 51 percent decline from the 1970 total of 9,843 head. Mexico again continued as the second most important market, taking 3,921 head in 1972, 35 percent less than the 6,066 head taken in 1971, and 11 percent below the 4,383 head shipped in 1970. Costa Rica remained in third place with 1,757 head which is 35 percent under the 2,697 head purchased in 1971, but 146 percent more than the 1970 total of 715 head.

The largest contributory factor to the continued decrease in exports in 1972 was the 2,145 head decline in exports to Mexico, compared with the 1971 total. Sales to Canada were down by 1,711 head in 1972, compared with 1971, providing another major reason for the reduction in the total number of beef breeding cattle moved out of the United States. Other countries which decreased their imports of U.S. beef breeding cattle during 1972, compared with 1971 include Ecuador, Nicaragua, and Spain.

Hereford breeding cattle continued as the leading export breed during 1972 but numbers were off 37 percent from the 1971 total of 5,256 head. Mexico was the most important Hereford breeding cattle market in 1972 taking 1,918. Canada ranked second with 1,114 head. Small numbers of Herefords also went to Argentina, Costa Rica, Guatemala, and Spain. Hungary took another 265 head, not shown in the 1972 total.

Brahman was the second most important export breed during calendar 1972 with 3,972 head shipped—the only major U.S. beef breed to show an increase in 1972, compared with 1971. Mexico was the major export market for Brahman breeding cattle in 1972, taking 627 head. This was a 36 percent reduction from the 851 head shipped in 1971. Guatemala ranked second in importance by importing 588 head. During 1971, Guatemala took only 341 head. Venezuela ranked third with 452 head, a noticeable improvement over the 54 head taken in 1971. Argentina obtained 202 head of U.S. Brahman in 1972, and Canada purchased a total of 82 head, a record number for that country in a calendar year. Brahmans were exported to 18 foreign countries in 1972 including Malaysia, Thailand, and the Philippines.

Charolais ranked third in importance with 2,502 head, a 5 percent decrease from the 2,631 head shipped in 1971. Costa Rica was the most important foreign market for Chaolais in 1972, with 1,228 head, compared with only 269 head the year before. Canada was second with 806 head, and Mexico third with 241 head.

Angus dropped to fourth place in 1972, compared with second in 1971. Total Angus exports in 1972 were only 1,884 head, compared with 3,215 head in 1971, a 41 percent decrease. The decrease in shipments to Costa Rica to only 177 head in 1972 from the high of 1,402 head in 1971 is the primary reason for the big decrease in the 1972 total. Canada ranked first in importance in 1972 with 918 head, and Mexico was second with 609 head.

Crossbred cattle ranked fifth as an export breed with 1,356 head in 1972, a decrease of 20 percent from the 1971 total of 1,696. Santa Gertrudis ranked sixth

with exports of 1,263 head, a decrease of 16 percent from the 1971 total of 1,509 head.

Exports of the "exotic" breeds became more important in 1972 than in any previous year. USDA inspections showed 162 head of Limousin exported, compared with 20 head in 1971. Canada took 159 of the 1972 total and Mexico the remaining three head. There were 147 head of Simmental inspected for export in 1972, compared with 58 head in 1971. Canada took 145 head and Mexico 2 head.

In 1972, U.S. beef breeding cattle were shipped to 30 foreign countries and from 44 States. Texas again ranked first as an exporting State, by a wide margin, shipping 6,316 head; Florida was second with 1,346 head; Montana third with 1,148 head; North Dakota fourth with 1,125 head; and South Dakota fifth with 349 head.

Table 1.--Beef breeding cattle: Inspected for export from the United States, by breed, calendar 1967-1972
